

CHARLOTTE TRADESMEN IMPACT REPORT FY 25 - 26

Coming together to further House of Mercy's mission of: Empowering people living with HIV/AIDS in their transformation toward a more independent life.

A Foundation of Care and Comfort

18 residents entered our PALM program last fiscal year.

Because of your support, each resident was welcomed with clean linens and a fully prepared bed, creating a safe, comfortable, and dignified space from the moment they entered our care.

As residents transitioned into stable housing, you made it possible to provide thoughtful essentials such as hampers, mattress protectors, bedding, towels, and cleaning supplies.

These items helped ensure a smooth and dignified transition into their new home!

3 Laptops were provided to PALM program residents

The laptops helped residents navigate online resources, including job applications, housing searches, and building essential digital skills.

“ I had a great time celebrating my birthday. House of Mercy makes me feel loved, supported, and cared for. ”
-Gilda, Resident

Celebrating Milestones & Creating Joy

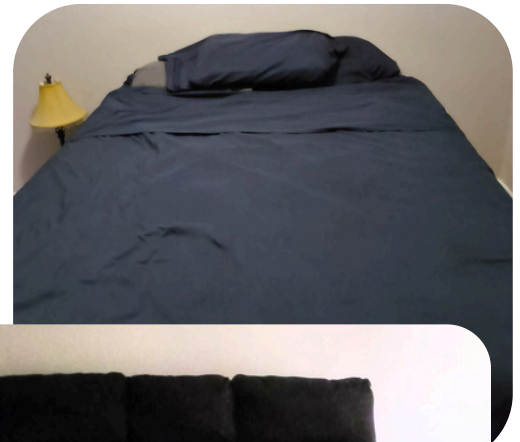

From mini golf outings to birthday celebrations and shared meals, your support made it possible for residents and clients to experience moments of joy, connection, and belonging. These opportunities foster meaningful relationships, celebrate milestones, and strengthen the sense of community that surrounds them.

Furnishing New Beginnings

You helped provide essential furniture to two clients as they transitioned into stable housing, creating a comfortable and welcoming space where they could begin their next chapter with dignity, stability, and a true sense of home.

2 couches, a mattress, and a bed frame were provided.

Resources That Restored Hope & Stability

- Essential clothing and shoes were purchased for a resident starting a new job. Your support helped remove barriers to entering the workforce, allowing him to start earning income, build stability, and take meaningful steps toward greater independence.
- We supplied a Wi-Fi extender for a client beginning a remote job, ensuring they had reliable internet access needed to successfully perform their work responsibilities. You helped strengthen their ability to maintain employment and continue building financial independence.
- We purchased a large-print Bible for a client who was deepening their spiritual journey but faced difficulty reading standard print. You supported their personal growth and continued connection to their faith.
